

Paged Form

(Softwood plywood covered with special craft-based paper)

Paged Form is made of thick veneer softwood panel covered on both sides with special craft-based paper impregnated with resins. The specific construction of the panel reinforces its durability and resistance, while the surface and strength of the overlay allows its user to achieve a spotless surface press.

The product is available in two versions: covered with kraft paper on both sides (MDO/MDO) or covered with kraft paper on one side and phenolic film on the other (MDO/F).
